1

What Is A Hybrid Workplace?

A hybrid-remote workplace is a model that combines remote work with office work. Some employees can work from home and others can work in the office.

ITAM Solutions avritek

“The potential benefits of a sound ITAM approach in the remote context are both many and impressive. They include more effective purchasing and disposal decisions, improved security, lower maintenance costs, optimized use of licenses, greater automation of asset-related processes, fewer item redundancies, higher budgeting accuracy, stronger readiness for asset audits, and more.”
