Finding your ITAM Oasis

IAITAM

May 7-9, 2024   The M Resort 🌴 Las Vegas, NV

AMI

Agenda

- The Importance of HAM
- Introduction to AI
- The role of AI in HAM
- Real world applications
- Implementation challenges
- Building the foundation
- Future insights

What's HAM got to do with you?

The value of HAM

Business value of HAM

Cost optimization

Risk management

Operational efficiency

Strategic decision making

Introduction to AI

Machine learning, specifically.

Pattern recognition

Predictive analytics

Natural language processing

Image and video analysis

Anomaly detection

Finding your
ITAM Oasis

Linear projection of machine learning

Seeing clarity in the shadows.

Failure data to predict success

Finding the correct angle

Distilling intelligence from insights

The role of AI in HAM

Automated asset tracking

Predictive maintenance

Data normalization

Real world implementation

Telecommunications case study

Data integration

AI model development

Automated asset tracking

Predictive maintenance

Real world outcomes

Telecommunications case study

Reduced operational costs

Decreased downtime

Improved asset data accuracy

# Real world challenges

Telecommunications case study

Data silos

Data quality

Integration

Data security

Preparing for the AI revolution

Chaotic

No tracking
Lack of control
High waste

Reactive

Spreadsheets
Redundancies
High maintenance

Proactive

Process control
Automation
Data accuracy
Efficiency
Compliance

Strategic

Data & Analytics
History
Trends
Forecast
Value Metering
Continuous
Improvement

IAITAM
Finding your ITAM Oasis

A M I

The future

Making sense of the noise

Automation

Data privacy

New regulations

Job changes

Climate impact
