01 Overview

The Ohio Public Employees Retirement System (OPERS)

- Since 1935, the Ohio Public Employees Retirement System (OPERS) has meant security and peace of mind to millions of Ohio's retired public workers and their families. OPERS provides retirement, disability and survivor benefit programs for public employees throughout the state who are not covered by another state or local retirement system.
- With total investment assets of \$114.1 billion as of Dec. 31, 2023, the Ohio Public Employees Retirement System is the largest state pension fund in Ohio and the 14th-largest state pension fund in the United States.
- Employers (3,689) – State, County, Municipalities, Miscellaneous, Libraries, Townships, Villages, Law Enforcement/Public Safety
- Pension Plan Membership (1,248,633)
 - Active Members – 297,827
 - Inactive Members – 730,139
 - Retired Members – 220,667

April 22-24, 2025 | The M Resort Spa Casino | Las Vegas, NV

01 Overview

The Ohio Public Employees Retirement System (OPERS)

- OPERS is a quasi-state agency in Ohio providing pension benefits and health care access for retired state employees
- Primary business functions include institutional investing, finance, IT dev and ops, pension processing and member services
- Employees – 490
- Locations – Corporate Offices and Disaster Recovery Site
- Work Arrangements – In Office and Work-From-Home

ITAM Specifications

- Device Assets
 - Computers – 1,925
 - Servers – 576
 - Peripheral Assets (network, monitors, docking) – 1,929
- Software Applications
 - Commercial - 496
 - Component - 664
 - Freeware - 621

April 22-24, 2025 | The M Resort Spa Casino | Las Vegas, NV

01 Overview

Project Timeline – Year 1

Q1 2023

- Industry Research
- Strategy Build
- Program Assessment
- Project & Team Build

Q2 2023

- Project Kickoff
- Policy, RACI & Process Development
- Inventory Assessment
- Systems Evaluation
- Process Review

Q3 2023

- Systems Training
- HW Asset Data Analysis
- Lifecycle Process Development
- Issues Tracker
- Trend Reporting

Q4 2023

- Systems Upgrade
- SW License Baseline
- Thin Client Integration
- Procurement, PO, Invoice Integration

April 22-24, 2025 | The M Resort Spa Casino | Las Vegas, NV

01 Overview

Project Timeline – Year 2

Q1 2024

- Build SaaS Presence
- Set Inventory Schedule
- Program Reassessment
- Add Servers to HAM

Q2 2024

- Reporting Schedule
- Build Program KPIs
- Analyze Data Anomalies
- Add Network Devices

Q3 2024

- Structure Internal Audits
- Develop Contract Database
- Automate Reporting
- Integrate Value-added Processes

Q4 2024

- Pursue License Compliance
- Explore NIST Standards
- Begin Continuous Improvement Strategy

April 22-24, 2025 | The M Resort Spa Casino | Las Vegas, NV

Project Milestones

1. Assess the program's current state
2. Build the project plan and team
3. Institute policy, governance and procedures
4. Build data repository
5. Develop software license baseline
6. Integrate value-added processes
7. Implement key performance metrics and reporting
8. Begin continuous improvement strategy

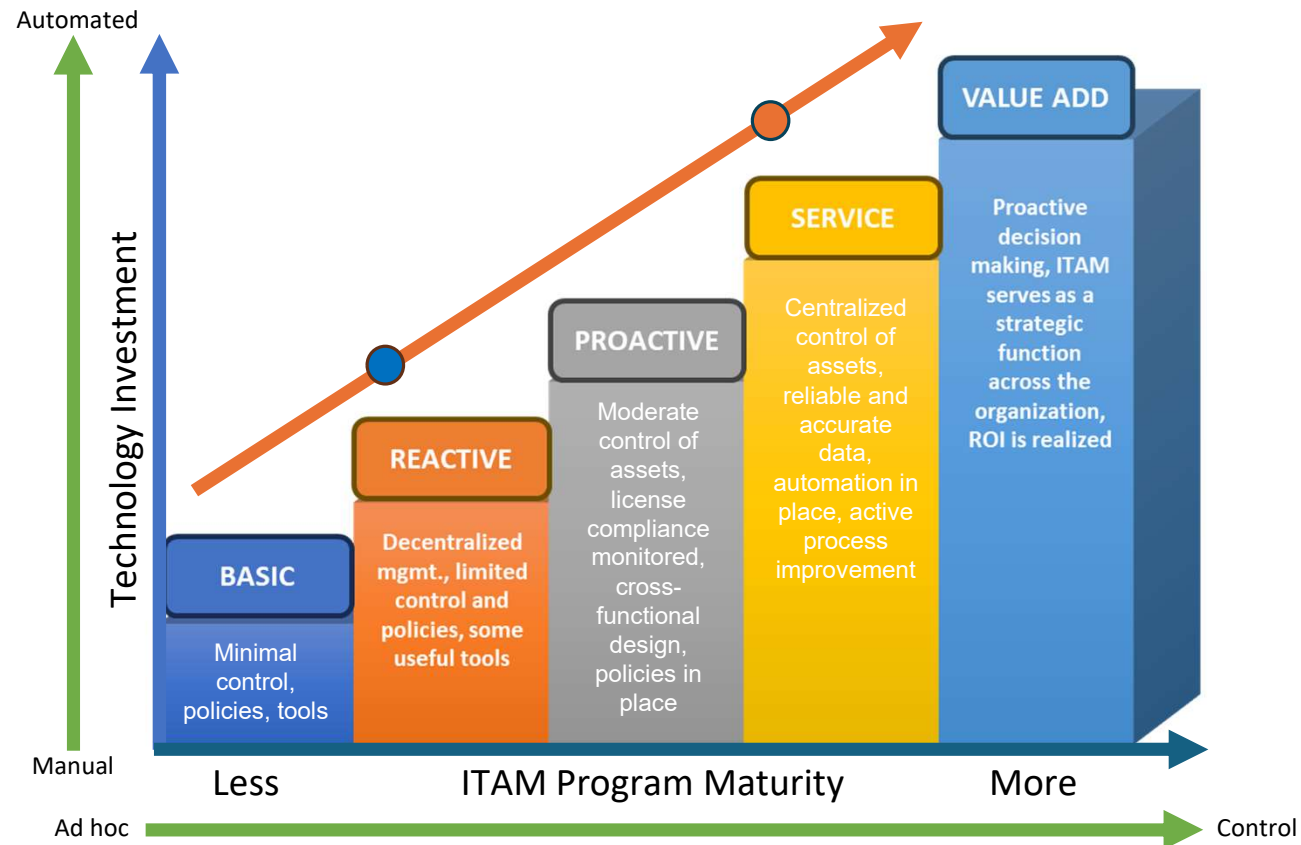

April 22-24, 2025 | The M Resort Spa Casino | Las Vegas, NV

02 Project Milestones

1. Program Assessment

Q1 2023

- Industry Research
- Strategy Build
- Program Assessment
- Project & Team Build

April 22-24, 2025 | The M Resort Spa Casino | Las Vegas, NV

1. Program Assessment

- People Functions Include:
 - Authority
 - Plan
 - Team
 - Stakeholders
 - Program Management
 - Project Management

- Process Functions Include:
 - Integration
 - Improvement Plan
 - Periodic Evaluation
 - Transition
 - Request
 - License and Contract
 - Acquisition
 - Deployment
 - Disposal/Reclaim

- Technology Functions Include:
 - Hardware Inventory
 - Software Inventory
 - Entitlement
 - Reporting
 - Verification

- Management Functions Include:
 - Best Practices
 - Comm/Education
 - Financial Mgmt
 - Compliance and Legal
 - Policy Mgmt
 - Vendor Mgmt

Q2 2023

- Project Kickoff
- Policy, RACI & Process Development
- Inventory Assessment
- Systems Evaluation
- Process Review

Roles and Responsibilities

It is the responsibility of all IT staff to work within the spirit of the IT asset management policy to minimize the loss of equipment due to lost or stolen equipment, and to assist the IT asset management team in managing the full lifecycle of equipment, including inventory. They are also encouraged to reinforce this with end users, as appropriate, making sure users are educated about security and appropriate use of equipment.

A RACI chart will identify who will be:

(R) Responsible:	• The person or team who actually gets the job done
(A) Accountable:	• The person who ultimately accountable for the task being completed appropriately
(C) Consulted:	• People who need to provide input to the task but do not fulfill the task. • Typically referenced as subject matter experts (SME), or stakeholders
(I) Informed:	• People who receive information about process execution and quality. • They need to stay informed regarding the progress of the task.

HAM Processes and Tasks	Director of IT	Director of Finance	ITAM	Service Support	IT Mgmt	IT Security	Procurement	HR	Business Unit Leaders	Legal

Questions

1. We identified 8 key milestones in our program development process. What other program milestones were critical in your journey?
2. How do you assess your program maturity? How often?
3. What has been the most challenging aspect of program development or growth?
4. What process or data integrations have provided the most value? Least value?

April 22-24, 2025 | The M Resort Spa Casino | Las Vegas, NV

Key Takeaways

1. Pace yourself
2. Find what fits the needs of your organization
 - a. Program size
 - b. Scope
 - c. Value
3. Be willing to try new things
4. Build functions and processes that bring value
5. Measure, measure, measure
6. Make lasting connections with key stakeholders
