

Securing the Exit

ENSURING COMPLETE RECOVERY OF DATA BEARING EQUIPMENT
FROM OFF BOARDED EMPLOYEES

Introduction

Aaron Officer, Manager, Digital Workspace Service
MBA, CHAMP, HAMS
BlueCross BlueShield of Tennessee

April 21-24, 2025 | The M Resort Spa Casino | Las Vegas, NV

Agenda

- Introduction
- Understand Device Security Protocols:
 - Learn how our company locks and protects all data-bearing devices on an employee's last day to ensure sensitive information remains secure.
- Initiate Immediate Recovery Processes:
 - Discover how we promptly begin the recovery process for all equipment as soon as an employee leaves, ensuring no device is left unaccounted for.
- Recognize the Benefits of Equipment Recovery:
 - Understand how recovered devices can be reassigned within the company, sold for marketing credits, or recycled, contributing to both cost savings and environmental sustainability.
- Achieve Peace of Mind:
 - Appreciate the seamless offboarding process that protects sensitive information, ensures efficient equipment recovery, and provides reassurance to both the company and its employees.
- Open floor for addressing any questions and providing further clarifications

GPS Tracker for Data-Bearing Devices

Enhanced Security for
Data-Bearing Devices...

Loss Prevention

- Reduces the risk of losing valuable devices by monitoring their location continuously

Quick Recovery

- Facilitates the rapid recovery of misplaced or stolen devices

Compliance and Accountability

- Ensures compliance with data protection regulations by maintaining a detailed log of device locations and movements

Data Integrity and Security

- Adds an extra layer of security, protecting data until the device is received or recovered.
- Facilitates audits by providing detailed tracking logs and reports, ensuring transparency and accountability.
